

FUSION 2K™

Featuring *SelectAir*® Therapy

The first non-powered therapy mattress that converts to "true" low air loss therapy.

Moisture wicking

Zoned, "true" low air loss used in acute care hospitals nationwide

iSense Processing™

Advanced microprocessors continually monitor patient's immersion

Preventative / Therapeutic

- Easily converts from FUSION 1K to 2K in seconds without replacing the mattress.
- Most non-powered systems on the market only have the option to upgrade to questionable alternating pressure alternative.
- FUSION 2K allows you to upgrade to "hospital grade" low air loss.

Specifications

- 300 lbs. weight limit (136 kg)
- 5 year non-prorated warranty
1 year warranty on cover
- 80" x 36" and 84" x 36"
