

A simple solution for non-powered therapy.

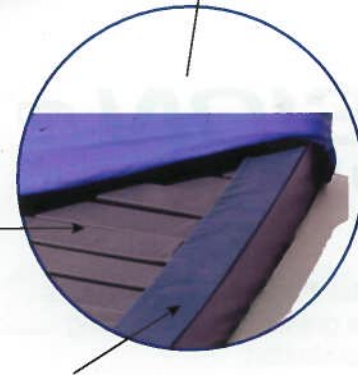

Top stretch cover is anti-microbial, waterproof, and breathable.

**5 Year
Warranty**

Sloped, soft, multi-density foam cradles heels to reduce pressure and shearing in this critical zone.

Each air and foam filled cell communicates to create exceptional envelopment and pressure redistribution.

Firm perimeter support for ease of transfer and safety..

DYNAMIC DISPERSION™

Proven Redistribution Therapy

- The "closed" system envelopes and redistribues pressure similar to other cellular based technologies.
- The competitor's "open" Self-Adjusting Technology vents making the single foam pieces handle the load individually.

Long Lasting Durability

- Since the air is supporting the majority of the load, as opposed to the foam, the system is designed to last years beyond the competition. For more information, refer to the Fusion XC / 1K Age Testing Report.

Specifications

- 500 lbs. weight limit (227 kg)
- 5 year non-prorated warranty
- 1 year warranty on cover
- 80" x 36" x 6" and 84" x 36" x 6"

Need even more therapy?

Consider the FUSION 2K for full "hospital grade" true low air loss therapy.
