

# FUSION<sup>™</sup> XC<sup>™</sup>

Featuring Dynamic Dispersion<sup>™</sup>

## DYNAMIC DISPERSION<sup>™</sup>

### Proven redistribution therapy

- The "closed" system envelopes and redistributes pressure similar to other cellular based technologies.
- The competitor's "open" Self-Adjusting Technology design exhausts, therefore the individual foam cells shoulder the majority of the load.

### Long lasting durability

- Since the air is supporting the majority of the load, as opposed to the foam, the system is designed to last years beyond the competition.

## Specifications

- 300 lbs. weight limit (227 kg)
- 1 year non-prorated warranty
- 1 year warranty on cover
- 80" x 35" x 6" and 84" x 35" x 6"
