

ROHO® Nesting Pad

The ROHO DRY FLOATATION Nesting Pad is designed to provide a calm sleeping environment for infants.

Multiple height air cells create a concave surface and immerse infants into the mattress pad, conforming to their body contours and providing a total contact, enveloping environment.

ROHO® Isolette

The ROHO DRY FLOATATION Isolette has interconnected air cells that provide a low-pressure, low-shear environment for an at-risk infant.

The non-powered, adjustable overlay fits standard hospital and home incubators. Two to four sections can be assembled to be used in larger pediatric beds.
